DOOR SCREENS

Brio 612 Pleated Screen

A pleated mesh screen with no spring tension - it stays where you put it, light to operate and beautifully suited to architectural builds, wide bifolds, and retirement villas. A lower-profile alternative to a retractable cassette.

WHY PEOPLE CHOOSE IT

- **No spring tension** - the pleated panel stays where you put it, light and easy to operate
- **Wide spans** - openings to ~9 m: up to ~4.5 m per screen, two meeting in the middle
- **Post-less corner openings** - the mesh turns a corner without a post
- **Recessed installation options** - can be fully hidden in cavities and pockets
- **Allegion warranty** - 5 years of mechanical cover for interior installations and 1 year for exterior installations

Pleated mesh across a wide stacker opening - Morrinsville.

Brio 612 pleated on a slider - Coromandel.

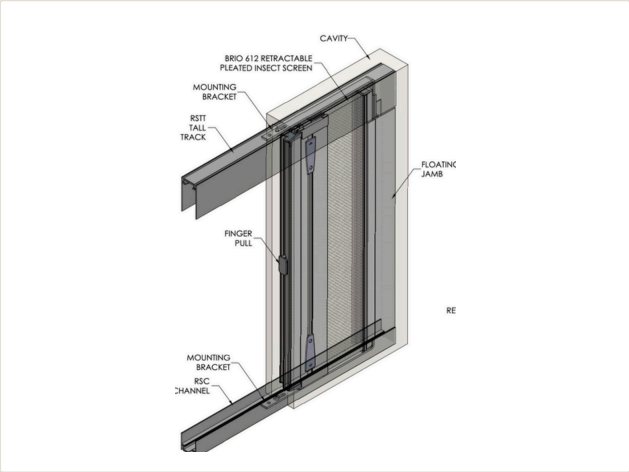
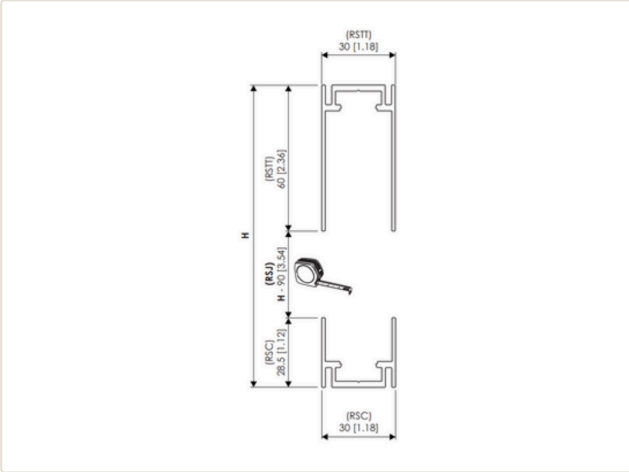
BRIO 612 PLEATED SCREEN

Specifications

Typical span	Openings to ~9 m (~4.5 m per screen, two meeting) x 3.2 m high
System	Pleated mesh, no spring tension - the panel stays where you put it
Wind	High-strength tensioning cords; optional high-performance kit lifts wind resistance by up to ~15%
Finish	Powder-coated, colour-matched to the Dulux range - Matt as standard
Fit	Retrofit or new build

PROFILES





Brio 612 recessed installation - tall track, floating jamb, and channel sections. Dimensions in millimetres.

MESH

The Brio 612 uses its own pleated mesh as part of the system - there are no mesh options to choose.

COLOUR

The 20 standard colours (indicative), Matt finish as standard - any other Dulux colour as a custom. Names and codes at phantomscreens.co.nz/guides/colour-options; confirmed against physical samples at the measure-up.

Allegion's Brio 612 warranty provides 5 years of mechanical cover for interior installations and 1 year for exterior installations.

Ready for an indicative price?

Enquire online with a couple of photos and rough sizes - you can upload the photos straight to the form. Usually no visit needed, and no obligation.
