

The Five-Point Install Check

Before we leave your home, your installer checks these five points off with you.

Every screen demonstrated before we leave - how it runs, latches, and retracts.

- | | | |
|---|--|--------------------------|
| 1 | We let you know before we arrived
You had our booking window and a heads-up when we were on our way. | ☐ |
| 2 | We demonstrated every screen
Each screen or blind operated with you: how it runs, how it latches, and what never to force. | ☐ |
| 3 | We walked you through care and warranty
Seasonal care and what your limited lifetime warranty covers, linked below. | ☐ |
| 4 | We protected your surfaces
Mats down at entry points, and no tools or hardware rested where they could mark your home. | ☐ |
| 5 | We left the site clean
Offcuts, packaging and rubbish gone with us, and drilling dust vacuumed. | ☐ |

INSTALLER	DATE
NOTES	

Happy with the finish?

Reviews are how a small NZ team gets found. If you are happy with your screens, two minutes on Google genuinely helps, and a photo of your new screen is even better.

phantomscreens.co.nz/review-us

Your documents live online

No paper to lose. Scan for the care guide and your warranty, or find both any time at phantomscreens.co.nz.

Care guide
