PHANTOM SCREENS NZ / PHOTO GUIDE

Photos for your screen estimate

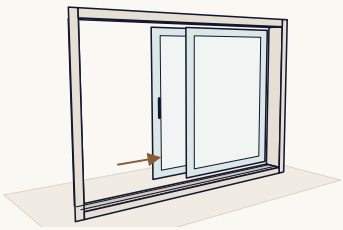

One clear overview of each opening is a good start.

Stand back. Move to one side. Show the whole frame.

Sliding & stacking doors

Usually outside, looking in

OUTSIDE LOOKING IN

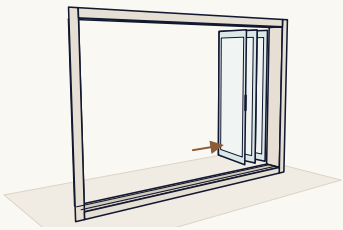

Panels usually slide and stack inside the frame. Show the full unit, open gap, handles and bottom track.

Bifold doors

Usually inside, looking out

INSIDE LOOKING OUT

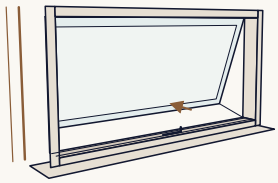

Panels fold outside, away from you. Show the full frame, stack and tracks. Inward-folding doors? Stand outside.

Windows

Usually inside

INSIDE LOOKING OUT

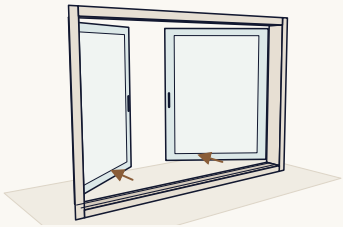

Show the whole frame, sill and handle or winder. Keep nearby blinds or curtains in view.

Hinged & French doors

Let the door open away from you

INSIDE LOOKING OUT

Opens outwards? Stand inside. Opens inwards? Stand outside. Show both French door leaves.

Check before you send

- Whole frame, with space around it.
- Clear angle, whole opening still visible.
- Handles, tracks and obstructions shown.
- Opening named; inside or outside noted.

Add details if needed

Use daylight and your normal phone camera. Add a close-up if a detail is hard to see.

Label rough **height, then width, in mm** for the opening to be screened. Exclude fixed panels. We confirm final measurements before manufacture.

Send photos and request an estimate

phantomscreens.co.nz/quote/

Up to six photos or plans in total. You can still enquire without photos or measurements.

Full guide: phantomscreens.co.nz/guides/measuring/

Only photograph what you can reach safely. Camera positions are usual starting points; screen mounting is confirmed separately.
